Shubham Gagare

Senior Full-Stack Engineer · React · TypeScript · Node.js · Java · AI Workflows

+91 7218522200 · shubhamgagare1997@gmail.com · Pune, India · Portfolio · LinkedIn

Senior Full-Stack Engineer with 7+ years of experience shipping production systems across fintech, edtech, and enterprise SaaS. Founding engineer experience owning architecture, delivery, and cross-functional execution end-to-end. Strong product and UX instincts from a design background enabling faster decisions and higher-quality interfaces. Proven track record building AI-integrated workflows, complex CRM/ERP platforms, and React component systems at scale. Comfortable leading teams, mentoring engineers, and driving delivery under ambiguity.

EXPERIENCE

UX Engineer · Kforce

Aug 2026 – Present

UX Engineer working across product UI, backend and the AI platform.

- Built a **modular AI framework** with **LangGraph and LangChain** where agents and AI features can be enabled or disabled per client, with **access controls** on who can use what.
- Contributed to the AI and backend layer using **FastAPI**: **RAG data preprocessing** and **RAG evaluation** to measure and improve answer quality.
- Rendered AI output through a **dynamic, client-personalised UI**: colour theme and logo setup applied per client without code changes.
- Led the **UI revamp** of the product, rebuilding the interface for a cleaner, more consistent experience.

Founding Senior Software Engineer · Siyaratech Innovations · Pune

Nov 2024 – Jul 2026

First engineering hire. Owned architecture, delivery, and team execution across 4 concurrent products.

- Architected and built a **Construction ERP** system handling real-time cost tracking, multi-role workflows, and project milestone management; deployed on GCP with PostgreSQL.
- Built and shipped a **CRM** platform with a fully dynamic form engine, field types, validation rules, and conditional logic all config-driven at runtime using React, TypeScript, and Java Spring Boot.
- Built an **Influencer-led e-commerce** platform (Consortium) handling high-concurrency product drops creators curate and sell products to their audience with real-time inventory sync; built with React, TypeScript, and Node.js.
- Developed TechDiveHub AI, an **AI based adaptive learning platform** using LLMs which dynamically generates course content and assessments based on learner profile and progress.
- Built an autonomous **AI voice sales agent** using LiveKit, Twilio, and Gemini calls leads, delivers contextual product pitch, handles objections, and schedules meetings end-to-end without human involvement.
- Built an **AI WhatsApp commerce** flow integrating LLM-based intent parsing with product catalogue lookups and order management.
- Led and mentored a cross-functional team of 8 engineers and interns; defined code quality standards, review processes, and release workflows.
- Owned client demos, proposal inputs, GCP deployments, and production debugging operating as both IC and delivery lead simultaneously.

Product Designer · ParentPay Group (SIMS Next Gen) · Pune

Nov 2021 – Mar 2024

Large-scale UK school management platform used by thousands of schools nationwide.

- Defined end-to-end **product workflows** for critical modules including Attendance (Take Register) and Fire Register used daily by school staff across the UK.
- Conducted user research and interviews with school administrators; translated insights into high-fidelity designs that drove a **25% increase** in module adoption.
- Collaborated directly with backend and frontend engineers to ensure implementation feasibility; **bridged product, engineering, and QA across** release cycles.
- Recognised with Best Team Award (2023) for impact on Take Register one of the platform's most-used features.

Software Engineer · **Volante Technologies** · Pune Mar 2019 – Nov 2021

Enterprise payment and financial automation platform. Contributed to VolPay a large-scale financial transaction product.

- Developed backend services in Java and Spring Boot for financial transaction processing and workflow automation within the **VolPay platform**.
- Built frontend components; contributed across full-stack releases for major clients including Goldman Sachs.
- Designed and implemented automation tooling that reduced manual QA tester effort by ~40%.
- Worked with Product Managers, BAs, and QA teams across structured release cycles in a high-compliance financial environment.
- Received Best Team Award (2020) for product implementations on the Goldman Sachs engagement.

SKILLS

Frontend: React, Next.js, TypeScript, JavaScript, HTML5, CSS3, Tailwind, Component systems
Backend: Node.js, Express.js, Python, FastAPI, Java, Spring Boot, REST APIs, Microservices, JPA/Hibernate,Multithreading, Design Patterns, Transactions
Databases: PostgreSQL, SQL, Query optimisation, Schema design
AI / LLM: LLM API integration, Prompt engineering, LiveKit, Twilio, Gemini AI, Adaptive content pipelines, LangChain, LangGraph, RAG, Azure AI
Cloud / DevOps: GCP, Docker, CI/CD, Production deployments, Monitoring, Debugging
Tools: Figma, Git, Postman, Jira, Linear
Soft Skills: Product thinking, UX design, Technical leadership, Cross-functional delivery, Mentoring

NOTABLE PROJECTS

TechDiveHub AI Live
Adaptive learning platform using LLMs dynamically generates course content, quizzes, and assessments based on learner profile and progress. Built with Next.js, TypeScript, and OpenAI APIs. Deployed on GCP.

AI Voice Sales Agent Built, not deployed
Autonomous outbound calling agent built with LiveKit, Twilio, and Gemini. Calls leads, delivers a contextual product pitch, handles objections conversationally, and books meetings end to end without human involvement.

HandCraft UI React Component Library npm
Open-source React component library with accessible, composable design tokens. Built to solve real UI inconsistency issues observed across product projects.

EDUCATION

Post Graduate Diploma in Advanced Computing 2018 – 2019
CDAC ACTS, Pune

Bachelor of Engineering in Computer Engineering 2015 – 2018
Pune University

CERTIFICATIONS

Microsoft Certified: Azure AI Apps and Agents Developer Associate (AI-103) 2026

AWARDS

- Best Team Award: ParentPay (2023, Take Register); Volante Technologies (2020, Goldman Sachs engagement)
