

Shubham Gagare

Full Stack Developer & Product Designer

+91 7218522200 | shubhamgagare1997@gmail.com | [Portfolio](#) | [LinkedIn](#) | [Intro](#)

Professional Summary

Founding / Senior Full-Stack Engineer with **7+ years of experience** building and scaling **0→1 and early-stage products**. Strong product sense from a product design background, enabling fast, user-centric execution from idea → MVP → production. Experienced in **React, Next.js, Java, Node.js, and AI/LLM integrations**, with a track record of owning architecture, delivery, and team execution in startup and enterprise environments.

Experience

Siyaratech Innovations, Pune (November 2024 - Present)

Founding Engineer

Early engineering hire owning product delivery end-to-end across multiple startup and enterprise engagements.

- Led architecture, frontend, backend, and UX for **multiple 0→1 products**, including:
 - AI-Driven Learning Platform
 - AI-powered enterprise security tools
 - Construction management system for real-time cost and project tracking
- Built and shipped MVPs rapidly using **React, Next.js, Java Spring Boot**, and modern APIs.
- Led and mentored a **cross-functional team of 8 (Frontend + AI engineers)**; defined delivery standards, code quality, and release processes.
- Designed and implemented **design systems**, ensuring consistent UX across platforms.
- Owned deployment, monitoring, and scalability decisions for production systems.
- Defined and implemented structured communication strategies with founders and clients, ensuring clarity of project specifications; initiatives improved proposal acceptance rates by 25% and fostered long-term partnerships.
- Built **TechDiveHub AI**, an AI-driven learning platform leveraging LLMs, with a focus on accessibility and performance.

Role highlights: founding ownership, speed under ambiguity, business-critical execution.

ParentPay Group, Pune (November 2021 - March 2024)

Product Designer

Worked on **SIMS Next Gen**, a large-scale UK education platform used by schools nationwide.

- Conducted user research and interviews with UK school administrators and staff.
- Designed low- to high-fidelity workflows for critical modules such as **Fire Register** and **Attendance (Take Register)**.
- Iterated designs based on pilot-school feedback, contributing to a **25% increase in user adoption**.
- Collaborated closely with engineers, PMs, and stakeholders to ensure feasibility and clarity.

- Recognized with **Best Team Award (2023)** for high-impact product delivery.

Volante Technologies, Pune (March 2019 - November 2021)

Software Engineer

Worked on enterprise payment and automation platforms.

- Developed frontend components using **HTML, CSS, AngularJS** and backend services in **Java**.
- Designed automation tools that **reduced tester effort by ~40%**.
- Collaborated with Product Managers, BAs, and QA teams across releases.
- Contributed to multiple versions of **VolPay**, a large-scale financial product.
- Received **Best Team Award (2020)** for product implementations (Goldman Sachs engagement).

Personal projects

HandCraft UI – React Component Library , Students AI Assistant , MarathaMatrimony App

Education

CDAC ACTS, Pune (August 2018 - February 2019)

Post Graduation Diploma in Advanced Computing

Pune University (June 2015 - June 2018)

Bachelor of Engineering in Computer Engineering

Skills

Technical Skills:

- Frontend: React, Next.js, HTML, CSS, JavaScript, TypeScript
- Backend: Node.js Express.js, Java
- Design: Figma, Sketch, Wireframing, Prototyping
- Databases: PostgreSQL, SQL

Soft Skills:

- Problem-Solving
- Debugging and Troubleshooting
- Research and Googling
- Design Thinking and UX

Awards

- Best Team Award, ParentPay (Take Register, 2023)
- Best Team Award, Goldman Sachs (Product Implementations, 2020)
